We will offer discount during the campaign period, please check more information at the counter.

Billing:

Itemized billing

Itemized billing calculates communications charges per call. If you want a bill itemizing calls made, apply for "Itemized billing service" (Charge applied*1) when applying.

- *1 For each detailed billing statement issued, you are charged ¥100 (¥105 including tax) per handset plus postage.
- *Itemized billing service cannot be applied for after concluding a rental agreement.
- *Depending on calculation and other details between operators, we may need to issue several bills over more than one month.
- *Your bill will be charged on your credit card more than one month after the return date.
- *Packet communications charges will be generated for i-mode and other use in addition to sending and receiving calls.
- *Please note that when no call or communication occurred, the itemized bill will not be issued and only a receipt will be issued.
- *The phone type may differ in some cases.

Time count billing

Calling charges are calculated by multiplying the minutes accumulated in the cellular phone's timer (seconds rounded up to a full minute) by the calling rate. You can pay your bill on the day of return when you return your rental cellular phone at the airport return counter.

- *Note: When returning a rental unit in person to the Haneda Airport counters, the World Cellular Phone Rental Center will verify the accumulated calling minutes (seconds rounded up to a full minute), calculate the charges, and issue a bill at a later date.
- *Fee calculation at the return counter may require extra time, so please visit the counter well in advance.
